MEASURES AGAINST COVID-19

Dear guests,

We would like to inform you about the protection measures against COVID-19 that we implement in our pension:

- When entering the facility, we provide disinfectant;
- Bed linen is disinfected by washing at 90 degrees Celsius;
- Towels and kitchen towels are disinfected by washing at 90 degrees Celsius;
- Protections for pillows and mattresses are disinfected by washing at 90 degrees Celsius;
- After the departure of the guest from the accommodation unit, we ventilate it until the arrival of another guest;
- When cleaning the rooms in the building, we disinfect them with the recommended disinfectants;
- All details in the building such as handles, handrails, etc. are wiped with disinfectant;
- We use cleaning clothes for only one accommodation unit, after which we disinfect it by washing it at 90 degrees Celsius;
- We respect the social distance of 2 m;
- Check in and check out is done with protective equipment - masks;
- Persons who maintain the facility regularly measure their temperature before entering the facility/start of business day;
- In case of fever, we take contact with health care institutions;
- Thermometer, masks and gloves are available on request;
- Chairs and tables in common areas for breakfast are disinfected after use;
- The kitchen and utensils in which we prepare breakfast are disinfected with the recommended disinfectants, and the food is prepared and served in protective equipment (gloves and mask)
